

Meeting 1

Date: 31-10-2023

Time: 9:30 PM

Attendees:

- Salma Ayman 202201191
- Malak Ahmed 202200812
- Shahd Hossam 202100936
- Mohaned Atef 202100383

Meeting Agenda:

- Brainstorm a project idea
- Researching the technologies that will be utilized
- Choose a title for the project
- Distribute the requirements of the project proposal

Minutes:

- We scoured the internet looking for website ideas that seemed doable and reviewed some of our ideas for the database course
- We settled for a recipe-by-ingredients website
- We spent some time coming up with a clever, catchy name and Eventually ended up with Troffi
- We gathered some documentation for flask which was recommended in the lab
- We reviewed the requirements for the first submission and divided the tasks

Tasks distributed:

- Competitive Analysis: Salma & Malak
- Propose a technical approach for the software project: Salma
- Create a repository for the project and add sprints. Malak
- Risk Mitigation: Mohaned & Shahd
- Feasibility Matrix: Mohaned & Shahd

Next Meeting:

- 16th of November
- At 10:00 PM
- Review our progress and plan for the next submission
