

Meeting 2

Date: 16-11-2023

Time: 9:30 PM

Attendees:

- Salma Ayman 202201191
- Malak Ahmed 202200812
- Shahd Hossam 202100936
- Mohaned Atef 202100383

Meeting Agenda:

- Checking project requirements needed in the design phase of the project
- Assessing all hidden/unclear details about the project
- Discussing the functional and non-functional requirements

Minutes:

After discussing all the details and determining the initial set of functional and nonfunctional requirements in the project, we did the following:

1. Determine the classes that will be implemented
2. Specifying the relationship between these classes
3. Design the class diagram using Lucidchart online tool
4. Distributing the other needed designs on the team members

Task Distribution:

- Use-case diagram: Malak
- Concept diagram: Shahd & Mohaned
- Context diagram: Salma
- SRS document: Shahd
- SDS document: Salma
- GUI design: Mohaned

Next Step:

The team should reassess and finalize each of the following: SRS, SDS documents.

Next Meeting: On the 20th of November
