Meeting 5

Date: 1-12-2023

Time: 7:30 PM

Attendees:

- Salma Ayman 202201191
- Malak Ahmed 202200812
- Shahd Hossam 202100936
- Mohaned Atef 202100383

Meeting Agenda:

- Share our findings from the previous meeting
- Make the final decision on whether to switch from python to c#
- Distribute Tasks for the upcoming week

Minute:

- Sharing Information:

  We took turns sharing our findings and eventually came to the conclusion that we are better off using flask for the experience and to be exposed to multiple languages and technologies instead of sticking to C#

- Tasks:

  We then discussed the viability of using a recipe API to replace the huge database we were planning to implement, and Salma made some sample CSV files

Tasks:

- Learn how to use flask properly : All team members
- Set up the first iteration upon which we can start working independently: All team members
- Pick a suitable API: Mohaned & Malak

Next Meeting:
- Wednesday, December 6th
- At 8:00 PM
- Upload our work and straighten out any kinks
